CAC

"Intellectual Center of the Army"

Capability Development Integration Directorate Overview Briefing

CAC - Capability Development Integration Directorate

Capability Development

CDID serves as the capability developer for the assigned Combined Arms Center proponent areas.

CONCEPTS
Develop initial concepts; identify initial requirements and solutions

REQUIREMENTS
Derive and further define requirements for solutions

EXPERIMENTATION
Refines ideas, concepts, solutions, prototypes and evolving technologies

CAPABILITY MANAGEMENT
Warfighter's rep in the fielding and life cycle management of current and future solutions

CAC Capability Development

- Combined Arms at DIV, Corps, and Theater Army (ICW CAC-K)
- Battle Command / Airspace Command and Control
- Computer Network Ops & Electronic Warfare
- Information
- Personnel Recovery
- Regional Support Group
- Site Exploitation

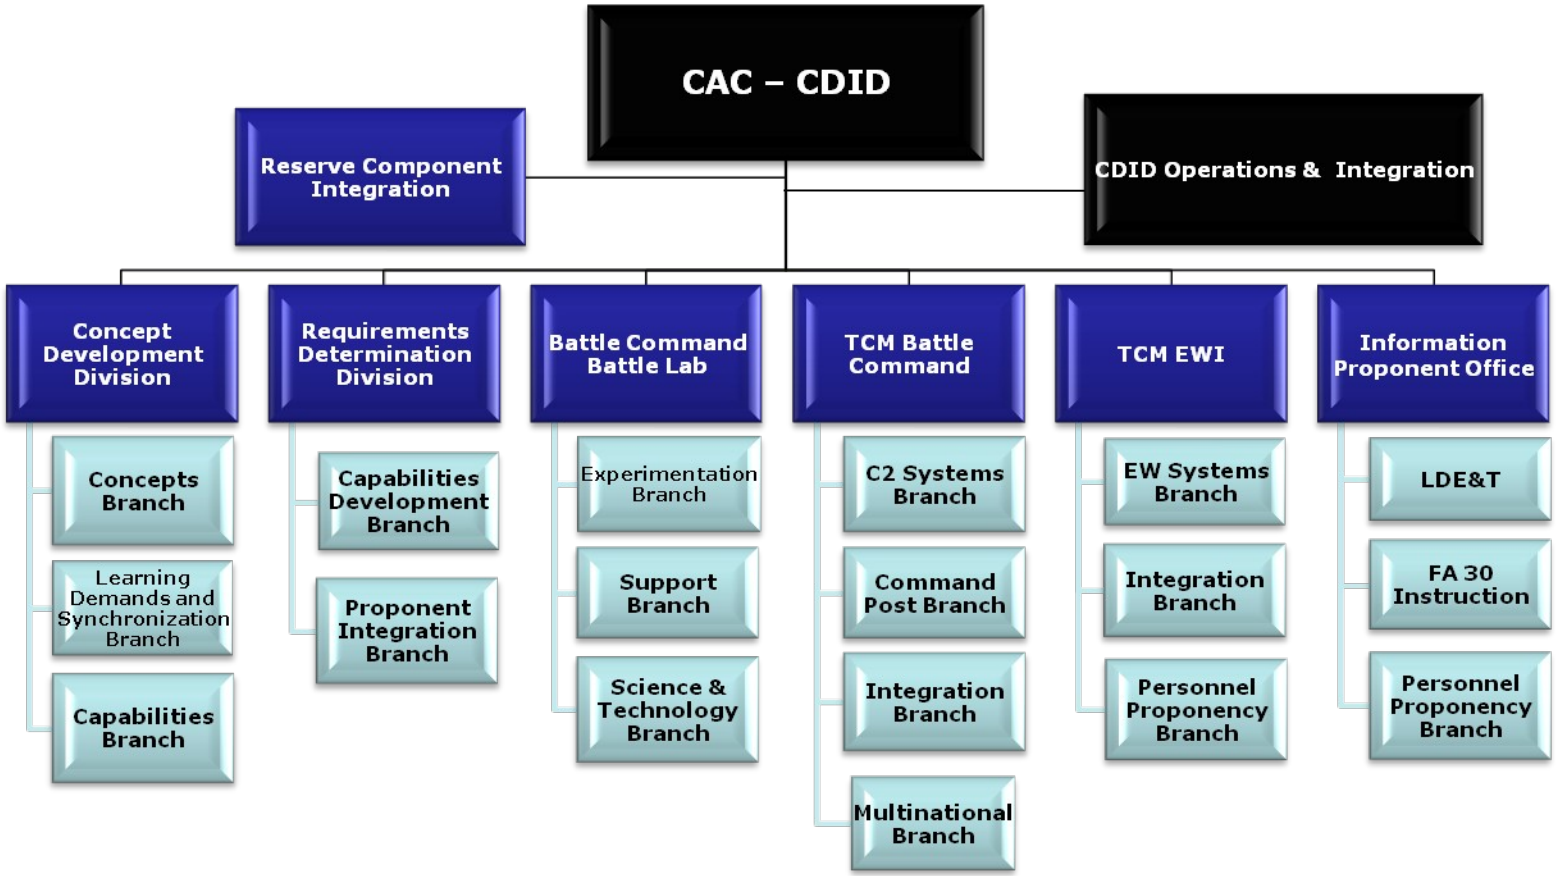
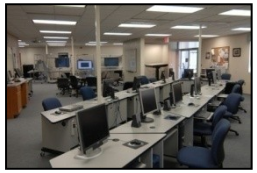
United States Army Combined Arms Center

Organization





Mission and Responsibilities

CAC-CDID executes *capability development* and integration for specified areas in order to develop DOTMLPF- integrated Combined Arms capabilities that enhance our current force, supplement our future force, and leverage existing joint capabilities.

Task	Category	Source
Command and Control ("Battle Command")	P	AR 5-22
Airspace Command and Control (AC2)	P	AR 5-22
Combined Arms Operations at EAB (Div, Corps, Theater Army)	P	AR 5-22
Computer Network Operations	P	AR 5-22
Information Operations	P	AR 5-22
Electronic Warfare	P	AR 5-22
Personnel Recovery	P	AR 5-22
Site Exploitation	P	HQDA
Regional Support Group	MR	TRADOC
Experimentation	CAC LEAD	TR 10-5-4
Concepts and Requirements Determination	CAC LEAD	TR 71-20
Lead CAC to FFID coordination efforts for Brigade Modernization	MR	CAC
Lead CAC responsibilities ISO specified ICDTs	MR	CAC
P = Proponency MR = Major Responsibility		

Relationship with Higher Headquarters

Assigned HQs

CAC
Core Functions

- Doctrine
- Knowledge Management
- Functional Training
- Training and Education Management and Development
- Training and Education Support
- Leader Development
- Lessons Learned
- Capability Development

Regulations combined with responsibilities make CDID responsive to both – *core functions often overlap*

Supported HQs

ARCIC
Core Functions

- Concept Development and Learning
- Requirements Determination
- Capabilities Integration

The ARCIC Campaign Plan (ArCP) together with Integrated Concept Development Team (ICDT) Charters guide the implementation of these functions.

Task	Category	Source
Command and Control (“Battle Command”)	P	AR 5-22
Airspace Command and Control (AC2)	P	AR 5-22
Combined Arms Operations at EAB (Div, Corps, Theater Army)	P	AR 5-22
